ACADEMIC SUPPORT

The primary goal of the University of South Carolina academic support program is to ensure that every student-athlete earns his or her undergraduate degree. This commitment to academic success is enhanced by the following:

- Degree completion plan from day one to ensure student-athletes are making continuous progress towards a degree;
- Priority registration to minimize athletics conflicts with academic requirements;
- Innovative objective-based study sessions for greater efficiency and productivity;
- Time management and organizational skills training;
- Diagnostic screening and learning assessments provided by a certified school psychologist;
- Campus partnerships to maximize programming and resources available to student-athletes;

Academic Advisors are experienced professionals who have a strong knowledge of University academic degree requirements and NCAA eligibility rules.

Learning Specialists work directly with student-athletes needing instruction outside the classroom in order to achieve academic success. These specialists have considerable experience in education and are trained in academic intervention

Tutors and Academic Coaches: The Tutor Program provides subject-specific assistance to student-athletes as a supplement to the classroom learning experience. The Academic Coach Program supports student-athletes as they learn to function effectively in the college environment and provide guidance on study and organizational skills, time management and goal setting.
