Joe Rackers welcomed everyone and called the meeting to order. He reported that we had received requests for a “working meeting” so that Carolina Core Committee members and Specialty Team chairs could get together and talk about development of the learning rubric for students. There was widespread support for the approach, and for the remainder of the meeting time small groups discussed and/or worked together on development of several of the rubrics including AIU, ARP, CMW, SCI, and INF. The meeting adjourned at 2:00 p.m.
